Eventuali future usure estetiche della pelle non possono essere motivo di reclamo, in quanto dovute alla struttura naturale della pelle. L'utilizzo di questi materiali pregiati su oggetti di piccola dimensione come le maniglie, permette di utilizzare al meglio risorse naturali che sono preziose, in quanto rare e a volte addirittura uniche.

Any future aesthetic wear and tear of the leather

cannot be ground for complaint, as this is due to the natural structure of the leather. The use of these valuable materials on small objects such as door handles, allows to make the best use of natural resources that are precious, as they are rare and sometimes even unique.
